

RIP Software with Everything You Need to Start Printing on Your New Epson® Printer

ONYX RIPCenter™ Epson® S-Series Edition software provides the control and simplicity needed to get started printing with the Epson SureColor® S40/S60/S80 printers and achieve consistent high quality output at an affordable price. The versatile tools in ONYX RIPCenter software make it easy to prepare jobs and create sellable prints faster.

Simple

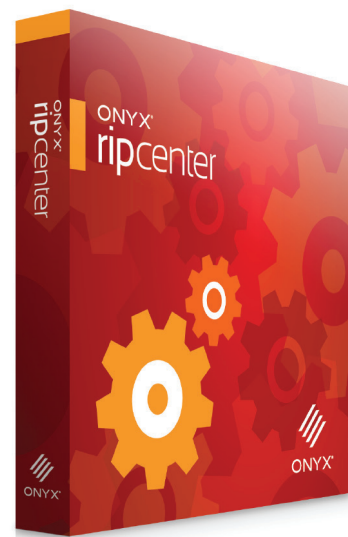

- Automate repetitive tasks with tools for print-only or print & cut applications
- Easy-to-use calibration tools to maintain consistent print quality
- Streamline job preparation, reduce errors and minimize material waste with ONYX Quick Sets 2.0

Innovative

- Color managed previews provide confidence in accurate, final output before printing
- Track key customer and job information throughout the workflow with Job Ticketing
- Produce vibrant color with software driven by ONYX Color, the proprietary color engine, from Onyx Graphics

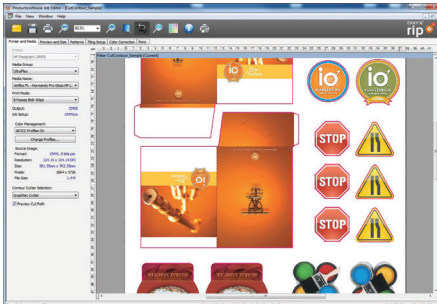

Proven

- Support for printing files with white or metallic ink
- Easily train new employees with an intuitive user interface designed for your workflow
- ONYX RIPCenter software is the ideal solution for new print shops

EPSON®
EXCEED YOUR VISION

KEY FEATURES

Print & Cut Workflow

- A fully integrated print & cut workflow for your unique applications
- Preview cut paths, before submitting images to production, to enhance confidence in final output
- Eliminate the additional printing step and import jobs directly into the CUT-Server module with cut-only workflow

Quick Startup

- Open and print your first file in minutes with an easy to use interface
- View active, upcoming and previously printed files within a single job queue
- Access on-line videos and training through ONYX TV and onyxgfx.com

Job Preparation

- Easily modify jobs, without switching applications, with access to Job Properties from RIPQueue
- Simple tools for cropping, sizing, and tiling jobs
- Simplify your workflow and minimize user decisions with ONYX Quick Sets 2.0

Upgradeable

As your print shop grows, you can easily upgrade your ONYX RIPCenter to the more powerful ONYX PosterShop software.

- Drive your second printer from the same station with support for multiple devices
- Enjoy the ability to build ICC profiles for spot-on color accuracy
- Easy-to-use tools for setting up Bleed, Grommet and Finishing Marks
- Spot layer, white and specialty ink tools
- Match difficult colors and have reduced waste with SwatchBooks

Recommended System Requirements
